

DUY HIEU

EDUCATION

VNU-HCM University of Science (HCMUS)

Apr 2023 – Present

Undergraduate in Information Technology | GPA: 8.97 / 10.0

- Core Coursework: Linear Algebra, Probability & Statistics, Advanced Data Structures & Algorithms, Artificial Intelligence, Operating Systems.
- Active technical leader, specialized in Agentic AI frameworks and low-level system optimization.

LANGUAGE PROFICIENCY

- English: IELTS 7.5, Professional working proficiency; skilled in reading technical documentation and research papers.
- Vietnamese: Native

TECHNICAL SKILLS

AI & LLM Frameworks: Agentic Workflows, LangChain, LangGraph, RAG (Retrieval-Augmented Generation), Text-to-SQL

Core Capabilities: Machine Learning from Scratch, System Architecture, Agile Teamwork, Technical Pitching & Presentation

Programming: Python, SQL, C/C++, NumPy, PyTorch

Systems & Tools: Linux, Git, Docker

COMPETITIONS & GLOBAL LEADERBOARDS

Woz BuildFast Hackathon

March 2026

- Secured Top 30 out of 300+ international teams (500+ participants from Stanford, Harvard, MIT, and 170+ other global universities).
- Agentic AI Product Development: Architected, developed, and deployed an intelligent, agentic to-do list application engineered to dynamically schedule and manage complex daily tasks under intense time constraints.
- Successfully pitched and demonstrated the technical system architecture directly to the CEO of Woz and their core engineering team.

TensorTonic — Machine Learning Challenges

May 2026

- Ranked Top 55 on the Global Leaderboard on a competitive platform dedicated to mastering Machine Learning through implementing foundational algorithms entirely from scratch.
- Developed a deep, first-principles understanding of core ML architectures, optimization methods, and mathematical implementations.

PROJECTS & RESEARCH EXPERIENCE

Text-to-SQL Agent (Spider2-Lite)

February 2026 – Present

- Engineered a Text-to-SQL Agent by researching and implementing diverse agentic frameworks using LangChain, LangGraph, and sophisticated RAG architectures.
- Achieved an accuracy on the Spider2-Lite benchmark equivalent to a Top 15–16 global ranking, the industry-standard benchmark for complex, real-world enterprise databases.
